

Rapid E-Learning

Design and deploy fast and efficient e-learning

With the Rapid E-Learning tool you can now create, review and publish e-learning materials using your PowerPoint, PDF files and video, quickly and efficiently. This allows management to distribute crucial information to the organisation and measure progress.

Make it measurable

With our online authoring tool you can easily add multi-choice questions in order to test the crew's understanding of the topic, giving you the possibility to rapidly respond to the training needs of your company as they arise.

The e-learning materials you create can be targeted to individuals, groups, or the company as a whole; and you can track engagement every step of the way.

- + Reduce development time and costs
- + Unlock the power of your subject matter experts
- + Turn face-to-face sessions into scalable e-learning
- + Target users, track usage and progress

This simple authoring tool allows you to rapidly create trackable e-learning, enabling you to promote critical information on the subjects that matter to you.

- + Communicate company strategy
- + Create new joiner induction
- + Test comprehension of fleet circulars
- + Learn from incidents and run safety campaigns
- + Roll out policy changes

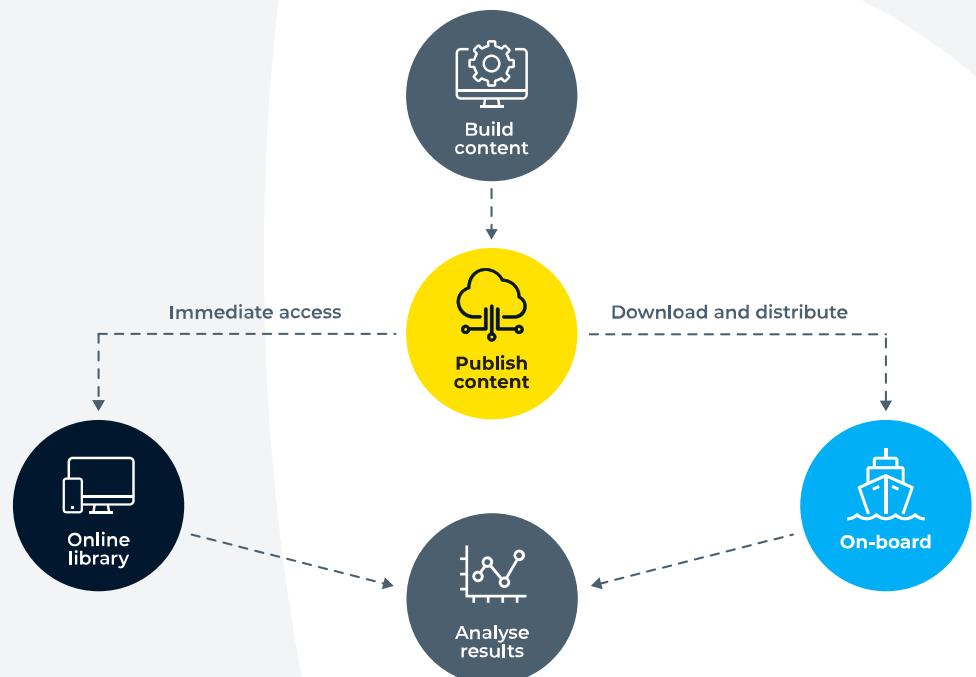

Create Rapid E-Learning in 5 easy steps:

- 1 Prepare material
- 2 Create e-learning content & assessment
- 3 Add enrollments
- 4 Distribute
- 5 Check results

Reach your seafarers online and onboard

When the content is published it can be viewed immediately in your online Training Library and prepared for distribution to vessels.

- + Immediately available online
- + Download and distribute e.g. over USB
